Putting off routine health screenings may put you at risk. One in eight women will develop breast cancer in her lifetime. But when caught early, breast cancer may be easier to treat.

Houston Independent School District members who are enrolled in the Memorial Hermann ACO and Texas Medical Neighborhood plans only (Kelsey-Seybold members are invited to a separate event), are encouraged to get back on track with an annual screening mammogram on **Saturday, November 9, 2024 at Memorial Hermann Imaging Center in Pearland.**

- Information on breast care and breast cancer awareness
- Individual swag bags for all screening mammogram patients this day

### What to Bring

Please bring your Photo ID and Insurance Card to your appointment and be prepared to provide the date and location of your last mammogram. An order is not required for a screening mammogram, but you must have a healthcare provider in order to receive your results. This appointment is only for a screening mammogram. Call your healthcare provider if you are experiencing symptoms such as a lump, pain, nipple thickening or discharge, or if your breasts have changed shape or size.
